## 20 and 50 MILE RECORDS BROKEN

Records Were Again Broken Today. Beach Slower Than Last Week but a Stiff Breeze Blowing. Many People Witness the Races.

Fletcher Covers 50 Miles in 38:51

Napier Driven 20 Miles in 15:23

## TIME RACES TOMORROW A. M.

The last day of the regular races opened up clear and cooler with a 20 mile breeze blowing direct from the north which stiffened up until before the end of the races it was blowing at a 50 mile rate.

The track was in rather poor condition, the red sand being more in evidence than during any day of the races, making the beach far slower than heretofore.

The excellent races yesterday brought out a larger number of spectators today, but as the wind stiffened, the crowd thinned down and at the close of the races there were only a few thousands in sight.

The first event was No. 5, fifty miles, for the Daytona landings, in which there were 9 entries, as follows:

No. 11. H. W. Fletcher, 80 h. p.

No. 6. E. R. Thomas, 80 h. p.

No. 25. Wm. Wallace, 80 h. p.

No. 8. B. M. Shankley, 80 h. p.

No. 13. W. G. Brokaw, 60 h. p.

No. 30. W. Christie, 60 h. p.

No. 11. G. W. Vaughn, 40 h. p.

No. 26. R. E. Jarrige, 45 h. p.

No. 13. W. G. Brokaw, 60 h. p.

No. 11. H. W. Fletcher, 80 h. p.

No. 6. E. R. Thomas, 80 h. p.

No. 25. Wm. Wallace, 80 h. p.

No. 8. B. M. Shankley, 80 h. p.

No. 13. W. G. Brokaw, 60 h. p.

No. 30. W. Christie, 60 h. p.

No. 11. G. W. Vaughn, 40 h. p.

No. 26. R. E. Jarrige, 45 h. p.

No. 13. W. G. Brokaw, 60 h. p.

No. 11. H. W. Fletcher, 80 h. p.

No. 6. E. R. Thomas, 80 h. p.

No. 25. Wm. Wallace, 80 h. p.

No. 8. B. M. Shankley, 80 h. p.

No. 13. W. G. Brokaw, 60 h. p.

No. 30. W. Christie, 60 h. p.

No. 11. G. W. Vaughn, 40 h. p.

No. 26. R. E. Jarrige, 45 h. p.

No. 13. W. G. Brokaw, 60 h. p.

No. 11. H. W. Fletcher, 80 h. p.

No. 6. E. R. Thomas, 80 h. p.

No. 25. Wm. Wallace, 80 h. p.

No. 8. B. M. Shankley, 80 h. p.

No. 13. W. G. Brokaw, 60 h. p.

No. 30. W. Christie, 60 h. p.

No. 11. G. W. Vaughn, 40 h. p.

No. 26. R. E. Jarrige, 45 h. p.

No. 13. W. G. Brokaw, 60 h. p.

No. 11. H. W. Fletcher, 80 h. p.

No. 6. E. R. Thomas, 80 h. p.

No. 25. Wm. Wallace, 80 h. p.

No. 8. B. M. Shankley, 80 h. p.

No. 13. W. G. Brokaw, 60 h. p.

No. 30. W. Christie, 60 h. p.

No. 11. G. W. Vaughn, 40 h. p.

No. 26. R. E. Jarrige, 45 h. p.

No. 13. W. G. Brokaw, 60 h. p.

No. 11. H. W. Fletcher, 80 h. p.

thirty miles south.

The machines started in the following order with handicaps given: 31, 8 minutes; 14, 7 minutes; 30, 5:20; 13, 5 minutes; 8, 4 minutes; 25, 3:30; 6, 1 minute; 41 and 5 scratch.

Control of 2 minutes were made at each turning point, making the race virtually five 10 mile heats.

The first 10 miles, run north against the wind, was rather slow, the best time being made by car 5 in 7:41 1/2, the best record of last year being 6:50 made by Vanderbilt.

At the 20 mile post Sartori was in the lead.

In the 20 mile run 21 gained and lead by 21 seconds. No. 30, second.

The Napier car had tire trouble. Wallace left the machine, not expecting to run. At the last second, she was ready to start and rails were yelled for Wallace, who ran with all speed and jumped in while the car was being started by his mechanic. The last seen of him he was still trying to steer and fix his goggles. This race, although No. 13, was not a Jonah for Billie.

The Napier won in 15:23, second 11, time 15:34; third, 25, 15:36; fourth, 31, 16:01; last 8, 16:25.

Vanderbilt's record of last year was 17:02, so that every car beat the world's record, the Napier reducing the record 1:39.

The third race was the final of

given: 20, 2:15; 20, 2 min; 16, G. H. Flinn, 40 h. p.; Daulder, 2 min; 8, 30; 25, Wm. Wallace, 80 h. p.; Fiat, 10; 11, 10 and 5 at scratch.

The wind had stiffened by this time and good time was expected. 25 and 11 started together but Wallace easily got ahead of his competitor and beat him at the finish by nearly 5 seconds.

Sartori had some trouble with his car, when the signal was given, was not ready to start, so had to drop out and the Napier did not finish in the race.

Car 26 won in 8:02 3/4; No. 11, second, 8:51.

The street sprinkler was at work today for the first time in many months.

H. Arnold, of New York, who has been getting out programs of the races here is an expert at the business. He has ruled the latest and best information into his productions and racing officials were heard today complimenting the excellence of his work.

### An Old Gag.

A new game to many people here is being worked by a set of sharpers who are in town. The plan is to drop a cheap, but fine appearing small article of jewelry which is dropped and afterwards picked up either by the sharper or a confederate while someone is looking. This article the "finder" professes not to want and offers it for sale at a low figure.

Of course no owner ever claims the goods and in a few days the buyer discovers the truthfulness of the old adage "all is not gold that glitters," and is a sadder but wiser man.

### Judge Shes Passed.

Some years ago Judge Shes, a New York lawyer, became chief justice of what was then the supreme court and what is now known as the city court of New York. He went to England once and was registered at a hotel as "Chief Justice of the Supreme Court, N. Y. A." The lords of the admiralty and the judges of all the great British courts called upon him, put him up at their clubs, invited him to dinner and treated him with as much consideration as if the tribunal of which he was the head had been, as they supposed it to be, one of the great courts of the United States, instead of a purely city affair.

Judge Shes was never tired of relating to his cronies here how he had been treated in England on that memorable trip.

### Liquor and the Term "Proof."

What "proof" means as applied to the quality or the measurement of the strength of whisky is not understood by many people. As explained by a man who knows the correct use of the term it is simple enough. The standard of the United States revenue is a liquor half of which, by volume, is alcohol. This is 100 proof. If a whisky, then, is described as 90 proof it means that it contains 90 measure of water and 10 measure of alcohol. Whisky of 120 proof contains 120 measure of water and 120 measure of alcohol. Philadelphia Record.

No. 5. A. E. McDonald, 100 h. p. Napier.

The course was laid from the club house south to the 10 mile post, the machines running back and forth until the 50 miles were covered, finishing at the club house.

The 20 miles were finished in front of the club house, Sartori winning the race and the cup in 10:20. H. W. Fletcher in the 80 h. p. Delbierich covered the 50 miles in 38:51 but did not win the race on account of the handicap. Vanderbilt's record was but 40:45.

Event 13, 20 miles, for the E. R. Thomas championship trophy, was the second race, in which there were 8 entries, the cars and numbers being the same as in the above table.

The cars were started one minute apart and ran south to the 10 mile post, where there was a two minute control, returning and finishing at the club house. Cars Nos. 8, 21, 25, 41 and 5 started in the order given.

Cars 4 and 5 crossed the line in front of the grand stand a few seconds apart. As they slowed down for the coasted a collision was avoided, but a few feet.

The 10 miles were finished in front of the club house, Sartori winning the race and the cup in 10:20.

H. W. Fletcher in the 80 h. p. Delbierich covered the 50 miles in 38:51 but did not win the race on account of the handicap. Vanderbilt's record was but 40:45.

## 20 AND 50 MILE RECORDS BROKEN

Records Were Again Broken Today. Beach Slower Than Last Week but a Stiff Breeze Blowing. Many People Witness the Races.

Fletcher Covers 50 Miles in 38:51  
Napier Driven 20 Miles in 15:23

## TIME RACES TOMORROW A. M.

The last day of the regular races opened up clear and cooler with a 30 mile breeze blowing direct from the north which stiffened up until before the end of the races it was blowing at a 50 mile rate.

The beach was in rather poor condition, the red sand being more in evidence than during any day of the races, making the beach far slower than heretofore.

The excellent races yesterday brought out a larger number of sightseers today, but as the wind stiffened, the crowd thinned down and at the close of the races there were only a few hundreds in sight.

The first event was No. 6, fifty miles, for the Daytona handicap, in which there were 9 entries, as follows:

- No. 41. H. W. Fletcher, 80 h p, DeDietrich.
- No. 6. E. R. Thomas, 80 h p, Daimler, M. Roberts driver.
- No. 25. Wm. Wallace, 80 h p, Fiat.
- No. 8. B. M. Shanley, 90 h p, Daimler.
- No. 13. W. G. Brokaw, 60 h p, Renault.
- No. 30. W. Christie, 60 h p, Christie.
- No. 14. G. W. Vaughn, 40 h p, Renault.
- No. 36. R. E. Jarrige, 45 h p, DeDietrich.

No. 5. A. E. McDonald, 90 h p, Napier.

The course was laid from the club house south to the 10 mile post, the machines running back and forth until the 50 miles were covered, finishing ten miles south.

The machines started in the following order with handicaps given: 36, 8 minutes; 14, 7 minutes; 30, 5:20; 13, 5 minutes; 8, 4 minutes; 25, 3:30; 6, 1 minute; 41 and 5 scratch.

Controls of 2 minutes were made at each turning point, making the race virtually five 10 mile heats.

The first 10 miles, run north against the wind, was rather slow, the best time being made by car 5 in 7:44 1-5; the beach record of last year being 6:50 made by Vanderbilt.

At the 20 mile post Sartori was in the lead.

In the 30 mile run 21 gained and lead by 21 seconds, No. 36 second.

The Napier car had tire trouble and Wallace left the machine, not expecting to run. At the last second she was ready to start and calls were yelled for Wallace, who ran with all speed and jumped in while the car was being started by his mechanic. The last seen of him he was still trying to steer and fix his goggles. This race, although No. 13, was not a Jonah for Billie.

The Napier won in 15:23, second 11, time 15:34; third, 25, 15:36; fourth, 31, 16:01; last 8, 16:25.

Vanderbilt's record of last year was 17:02, so that every car beat the world's record, the Napier reducing the record 1:30.

The third race was the final of

given: 36, 2:15; 30, 2 min; 16, G. H. Flinn, 60 h p Daimler, 2 min; 8, 40; 25, Wm. Wallace, 90 h p Fiat, 1:10; 41, 1:10 and 5 at scratch.

The wind had stiffened by this time and good time was expected, 25 and 41 started together but Wallace easily jumped ahead of his competitor and beat him at the finish by nearly 3 seconds.

Sartori had some trouble with his car, when the signal was given was not ready to start, so had to drop out and the Napier did not finish in the race.

Car 36 won in 8:02 3-5; No. 11, second, 8:51.

The street sprinkler was at work today for the first time in many moons.

H. Arnold, of New York, who has been getting out programs of the races here is an expert at the business. He has rushed the latest and best information into his productions and racing officials were heard today complimenting the excellence of his work.

### An Old Crag.

A new game to many people here is being worked by a set of sharpers who are in town. The plan is to have a cheap, but fine appearing small article of jewelry which is dropped and afterwards picked up either by the sharper or a confederate while someone is looking. This article the "finder" professes not to want and offers it for sale at a low figure.

Of course no owner ever claims the goods and in a few days the buyer discovers the truthfulness of the old adage "all is not gold that glitters," and is a sadder but wiser man.

### Judge Shea Posed.

Some years ago Judge Shea, a New York lawyer, became chief justice of what was then the marine court and what is now known as the city court of New York. He went to England once and was registered at a hotel as "Chief Justice of the Marine Court, U. S. A." The lords of the admiralty and the judges of all the great British courts called upon him, put him up at their clubs, invited him to dinner and treated him with as much consideration as if the tribunal of which he was the head had been, as they supposed it to be, one of the great courts of the United States, instead of a purely city affair.

Judge Shea was never tired of recounting to his cronies here how he had been treated in England on that memorable trip.

### Liquor and the Term "Proof."

What "proof" means as applied to the quality or the measurement of the strength of whisky is not understood by many people. As explained by a man who knows the correct use of the term it is simple enough. The standard of the United States revenue is a liquor half of which, by volume, is alcohol. This is 100 proof. If a whisky, then, is described as 90 proof it means that it contains 90 measures of water and 10 measures of alcohol. Whisky of 100 proof contains equal measures of each. Whisky of 120 proof contains 100 measures of water and 20 measures of alcohol.—Philadelphia Record.

Cars 4 and 5 crossed the line in front of the grand stand a few seconds apart. As they slowed down for the control a collision was avoided by but a few feet. The De Dietrich fell out at this point on account of a broken clutch and the car ran away with the driver, going fully a mile north to the club house. The Napier slipped a gear wheel and drove up into the soft sand. Wallace, with the bad luck which has been following him ran out of gasoline. Forty miles showed Sartori still in the lead with car 8 next. Car 6 fell out on account of a tire.

The 50 miles were finished in front of the club house, Sartori winning the race and the cup in 10:20.

H. W. Fletcher in the 80 h. p. DeDietrich covered the 50 miles in 38:51 but did not win the race on account of the handicap. Vanderbilt's record was but 40:49 4-5.

Event 13, 20 miles, for the E. R. Thomas championship trophy, was the second race, in which there were 8 entries, the cars and numbers being the same as in the above table.

The cars were started one minute apart and ran south to the 10 mile post, where there was a two minute control, returning and finishing at the club house. Cars Nos. 8, 21, 25, 41 and 5 started in the order given.

event 5, the Ormond Derby for the C. J. S. Miller trophy, two heats of which were run yesterday.

In this event cars 5, 8 and 6 competed, the cars and drivers being the same as in the foregoing table.

The cars were started together and came to the line well together but all going very slowly. As they crossed the line No. 6 shot ahead and took the lead with the Napier a close second and 8 trying to get room way. As far as the eye could follow them they seemed close together and was the prettiest race started.

No. 5 won the heat and the event in 6:15, No. 6 second—this breaks the world's record last year of 6:50 and the new world's record made last Saturday by the same car when she made it in 6:31 4-5.

The English papers have been rather sceptical as regards the fast time made on the beach here, not only this year but during last year's races. It is to be wondered if they will accept the figures above when made by an Englishman driving an English made machine. Possibly even they will admit that the Daytona-Ormond beach is a speedy one.

The last regular race for this year's meet was event 29, a ten-mile handicap, between the following cars, the amount of handicap being

1 For 50—A Ring which the owner can have by applying to the Mayor and paying charges.

It was announced from the judges stand at the close of the races that the various trophies would be presented this afternoon.

The circulation of the DAILY NEWS is steadily increasing and on Monday passed the 500 mark by a clear majority of 100. Monday's edition of the paper was exhausted fifteen minutes after the last form was off the press. 600 for a daily in a city the size of Daytona is a very creditable showing and is evidence that the public appreciate our efforts. It shall be our aim to build the circulation to a still higher figure and to accomplish this will make it better and better each day.

## Daytona Daily News

Published Daily Except Sunday.

Issued from January 1, to April 1, at Daytona, Florida, by  
GEO. F. CROUCH, Editor and Proprietor.

Subscription—(by mail) \$1.25 for the year. By Carrier 15 cents a Week.  
(Entered as second-class matter January 3, 1905, at the postoffice at Daytona,  
Florida, under Act of Congress of March 3, 1879.)

The Daily News on sale at  
Clark's and Barnes' news stands.

Barney Oldfield and wife left yesterday for St. Louis.

Chas. J. Rogers of Palatka, was in the city yesterday.

Note the change in the railroad schedule in another column.

The Cherokee took a party of 35 on the Tomoka trip yesterday.

Mr. and Mrs. A. W. Piaget, of Patterson, N. J., are at The Austin.

W. H. Pickens left for New Orleans to promote the auto racing there.

W. C. Turner, Sandersville, Ga., F. E. Brenner, Philadelphia, are guests of The Gables.

B. W. Nichols, of Sharps, Fla., has arrived and will assist Agent Webber with the express.

E. C. Ball, who drove the Electric Vehicle Co's auto in the races, left for Hartford, Conn., yesterday.

E. D. Waldron, a well known property holder of St. Augustine, was a guest of The Ridgewood yesterday.

F. J. Arch and wife, Dayton, O., and H. S. Hepburn and wife, Davenport, Ia., registered at The Ridgewood yesterday.

The Boys' Band left for Deland yesterday, to fill an engagement there last night. From there they will go to New Smyrna and Cocoa.

The change in the railroad schedule, which was not generally known, caused many to get left yesterday.

Agent Jibb had notices of the change posted, but the public overlooked them.

There will be preaching at the Christian church on Palmist avenue between Orange and Live Oak avenues, next Sunday at 11 o'clock a. m. and 7 p. m. by the new pastor, Omer Carpenter, from Lexington, Ky.

"La Sha, Electrician, 221 n Beach street. 500 Edison electric lamps just received. 2 to 50 c p. 100 volts. Also fixtures and shades. 127-1m

A five-table endure part was given at The Cleveland which kept the guests up till a late hour and proved very enjoyable. The gentleman's prize was won by Chas. Barber, of Juliet.

Mrs. Searles, of Beaver Falls, Pa., secured the ladies' prize. The consolation prize were awarded to Mrs. Churchill of Chicago, and J. S. Storer of Pittsburgh.

A boomerang thrower gave an exhibition of his skill on Beach street, yesterday afternoon, which attracted quite a crowd. The instrument looks like two flat sticks, about ten inches long and one inch wide, fastened in the middle at right angles. No matter how he threw it, perpendicularly or horizontally, it returned to him. He did not offer to sell them, but stated that they were for sale in town and that he was simply showing the public that any one could handle them as well as himself.

Announcement of Candidacy.

I hereby offer myself as a candidate for Mayor and if elected will pursue the same lines of administration as in the past two years.

Respectfully,  
C. L. SARR.

Capt. and Mrs. Geo. E. Brown and Mrs. M. C. Moore left today to see the Palm Beach races.

C. C. Chaffin, district manager of the National Cash Register Co., of Atlanta, is a guest of The Daisylod.

The Cherokee is now making regular runs and will make the trips as scheduled until the close of the season.

"Low, gold filigree locket between postoffice and my residence. Reward if returned to 15 First avenue.

J. F. Hasty and Miss Hasty, of Detroit, came up by lunch from Ponce Park and spent the day in the city.

Your Chiropody, Manicuring, and shampooing done at your hotel or residence by Mrs. Brown, Troy House.

Reuben Hardy, who has been a clerk in the express office during the races, has been ordered to West Palm Beach.

Mrs. L. A. Breckenman, Lancaster, Pa., H. C. Plimpton, New York, Mrs. Lindeman, Mrs. F. F. Brooks, Philadelphia, are guests of The Palmist.

Al. Bechold left today with the Blue Streak and the Peerless touring car, for New Orleans, where he will get Barney's racers in time for the track.

The Green Dragon has been shipped to Chicago, where she will be put on exhibit. She will then be taken to take part in the New Orleans races.

H. N. Ogden, Cincinnati; J. M. Fikes, C. W. Bush, Fenton, Mich.; Jno. J. Waterhouse and wife, Saratoga; W. M. Miller, Millersburg, Ky.; Mrs. J. H. Baker, Miss Louis Buschman, Cleveland; Geo. A. Helman and wife, Chicago, are guests of The Cleveland.

### THE WEATHER.

Sunday fair and warmer.

A fine Piano and Piano-player for rent. Address W. News office, 29-31

A large audience greeted Mr. and Mrs. Russell at St. Mary's Hall last night and enjoyed the performance. Quite a neat sum of money was raised for the benefit of the church.

Mrs. R. P. Russell, Mrs. Moran, N. D. Maleson, Jr., N. Y.; D. R. Brown and son, Pittsburg; Mr. and Mrs. C. C. Ryce, Mrs. A. E. Ryce, Escambia, Mich. are guests of The Des Pland.

Mrs. L. O. Rawson had the fire engine out yesterday afternoon, sprinkling the street and park in front of her residence on south Beach street. Many places need it far worse.

J. P. Browning, who has charge of building the new road south of Port Orange, brought up three enormous oyster shells picked at random from the big shell mound which has recently been opened up. Two of these shells are long and narrow and will measure 2 1/2 by 2 inches, while the other one is fully 3 inches each way. Mr. Browning says the shell mound is fully a mile long and has been opened up to a depth of 20 feet, how much deeper it goes he has no idea.

### Freights May Be Cut.

The recent decision of the Florida Railroad Commission, which body has ordered a sweeping reduction in railroad tariff rates of freights, is considered a signal victory for the interior cities which did not enjoy the competition which seaboard towns with their steamer lines offered. For the past two years this matter has been under consideration, the dealers in those sections claiming that they were unjustly taxed with high rates. This move on the part of the commissioners is accepted with pleasure by the wholesale houses. It is likely to cause a call in the northern bound freights as the reduced rates from Cuba have tended to cause the shipments of freight from that place by a part steamboat transportation into the Florida shipments—Palm Beach News.

### Frank Croker Left Fortune.

Frank Croker, killed in the automobile accident on the beach near Ormond a week ago, at the age of 27 years had piled up a fortune of \$100,000.

This fortune he made out of the Roebbing Roofing Company, at the same time managing all the business affairs in this country of his father. That he had made so much money on his own account was unknown even to Tammany men until John Fox, president of the Democratic Club and an intimate friend of young Croker, announced it last Saturday in New York.

"Fox men know," said Mr. Fox, "that Frank left a large private fortune. He was the active head of the Roebbing Roofing Company, with offices in the Flatiron building, and it was through his energy that the business was such a profitable one."

"I am reliably informed that he had made a fortune of \$100,000. The company has outstanding contracts for roofing on a large scale all over the country. Every cent of this fortune was made by Frank Croker himself, without aid from his father, and is a splendid memorial of what a young man of 27 can do, provided he applies himself to business."

The connection of Frank Croker with the Roebbing concern was one of the matters about which Richard Croker was questioned before the Maset committee, an effort being made to show that the company had been shown favors by the Van Wyck administration. Richard Croker resented the implication, and one of his bitterest complaints against New York was that his sons could not go into business "without being hounded," as he put it.

Pope-Toledo Steamer, almost new, \$1,000 cash for \$300 cash, seats four. Telephone 232. thulw

## For Rent.

3 room furnished house, near Ridge road on Orange avenue. Electric lights, place bath and all modern improvements. Everything new. Price reasonable. Enquire of R. J. Malby, manager Bond Lumber Co.

## Form Toe To Heel

Every pair of BOSTONIAN SHOES shows clever workmanship and good honest leather. The staidly of men who wear good shoes because they are made of the highest grade of materials. They are made over comfortable, shapely lasts by expert under the soles and are strictly up-to-date.

\$3.50 and \$4.

## THE GLOBE

Peck & Foster, Proprietors.  
DAYTONA, FLA.

Clothing, Shoes and Gents' Furnishings.

Lost:—Black Chiffon Colarette, Sunday night, between H. H. Hoene's house and postoffice. Finder please leave at the postoffice. 30-21

### High School Items.

Next Friday is election of officers in Parliamentary Club and its high time the candidates were in the field advocating their merits.

Examinations are over once more and only the other fellow failed.

When we had \$50 in our High School treasury, we knew what to do with it, but now that we have only \$3 we are torn with devers' desires.

Write up your ad for the club paper.

Did we hear any one talking about that new school building for next year?

### Motor Boat Races.

Trophies of beauty and great value will be contested for by the owners of motor boats as well as those who have fast boats in other classes at Palm Beach today. In one of the large show windows of Greenleaf & Crosby Company there is an exhibit of some of the magnificent cups. Several of the owners of boats have offered handsome boxing cups of rare beauty, design and skill in silversmith's art.

The wharf at the Royal Poinciana grounds has been enlarged and improved and will be one of the important vantage points during the races. There will be tiers of elevated platforms on which will be grouped lawn benches.

The decorations of boats of all classes will add much grandeur and color to the events, each day's parade to be a panorama of beauty.

To accommodate the large crowd of patrons from the hotels provisions have been made by having auxiliary launches and boats from abroad, while there will be ample facilities for witnessing the races.

The houseboats will be in line with pretty decorations and will form a leading attraction, as they are so susceptible of elaborate treatment at the hands of the artistic decorators. Some of these boats will be floating gardens and at night they will be decorated with electric lights and many pretty and gorgeous Japanese lanterns.

### SI Plunkard.

The rural Yankee comedy of the above name will be at the opera house Friday next. The comedy is in four acts, the scenes of which are laid in and around the New England country and New York City. The central figure of course is "Si Plunkard," a young Yankee farmer,

which part is looked after by Mr. J. C. Lewis.

Some of the leading characters seen may be mentioned: Dora Page, a young country lass in love with Si; Felix Smart, an inventive Dutchman; Robert Denny, a bogus stock speculator; Ezra Plunkard, an honest old farmer who does not understand speculation; and numerous country friends of the Plunkard family. The performance includes many specialties of an original and novel character by a company of comedians and the grand orchestra carried by the company will render the latest musical selections between the acts.

### State Items

Lake City and Miami have refused to grant franchises to opposition telephone companies.

Watch for Florida's calamity liar.

W. Gould Brokaw's launch Challenge was slightly damaged while being launched to take part in the races at Palm Beach.

Entries for the Palm Beach races closed today. Over 60 boats are entered.

Tampa shipped 2,565,000 cigars for the week ending January 11.

Apalachicola ships more oysters than any other point in the State.

Lee county has shipped over 100,000 boxes of oranges, or over 25,000 more than ever before in one season.

The total number of boxes of oranges shipped from Zolfo this season is in the neighborhood of 83,000 or about 10,000 boxes more than last season.

The President has sent to the Senate the nomination of W. C. Eddy as postmaster at DeFuniak Springs, and Alexander Zipperer as postmaster at Madison.

### Automobile Superstition.

The automobile is such a modern institution that it is hardly possible to imagine superstition being already connected with it. Among modern car drivers in England, however, there is a curious survival of an old bit of folklore. In many cars is suspended a perforated stone, usually a sea rolled flint with a natural bore. This stone is supposed to act as a protective amulet. To be efficacious in warding off evil the hole must be naturally or, as some people maintain, supernaturally forced, not artificially bored. Belief in this stone's power is widespread. It is supposed to confer safety on the fastest traveling motor car, and there is many a speedy driver who in his heart ascribes his immunity from accident to the strange power of the perforated pebble.

### Her Worst Fear.

Willie—Oh, mamma, that cook pot sent has red hair, scars all over her face, a breath that smells like whisky. She looks awful mad and says she wants to see you.

Mrs. Slimson—Oh, dear, I'm afraid she isn't going to stay!—Brooklyn Life.

## Charming Enough

pretty enough and cheap enough. This you'll say of our

## Toilet Preparations

after you have examined them. A wonderful assortment of creams and balms are contained in our stock and your range of selection will be unlimited. While these articles are low in price, their actual value is really more than what we charge for them. We have everything you could expect to find in an up-to-date Drug Store.

## Women Who Marry Men to Reform Them

By Mrs. FRANK LESLIE

REFORMED rake makes the best of husbands," is an old saying and, like many other time honored assertions, is simply a VENERABLE fraud, and again, like many other often exposed frauds, it is just as effective for MISCHIEF today as when it started out in life, perhaps in the days of Cain, who may have been taken in hand by some antediluvian enthusiast who preferred the honor of converting him to the monotonous contemplation of Abel's virtues.

Generations on generations of women have tried the experiment and failed in it, but the generation of today is pursuing it with just the same credulous belief in its own powers that has led its predecessors astray, and THE RESULT IN THIS CASE WILL BE THE SAME AS IN THAT, just as thrusting the hand into the fire today burns in quite the same way that it did when Joan of Arc perished in the flames because she thought she could reform Charles VII. and his France.

One very singular point in this repetition of history is that men pick up the very same blunt old weapon that their fathers have thrown aside, and use it with exactly the same success as if it had been forged for their personal use and under their own patent, while the woman, accepting the man AT HIS OWN VALUATION, enters with the ardor of a discoverer or an inventor upon the well worn path of defeat and travels it to the very same bitter end achieved by thousands of women before her, and even then it is not often that she recognizes the fact that she has only been repeating history and has not the very LEAST LITTLE CLAIM to originality either in the idea of the campaign or in its disaster.

A BAD MAN IS IN SOME RESPECTS LIKE A BAD BOOK. YOU STUDY THE ONE OR THE OTHER, YOU ARE ALTOGETHER SHOCKED AND REPELLED, AND AT THE END YOU THROW THE BOOK ASIDE, BUT YOU CANNOT BY A MERE EFFORT OF WILL FORGET ALL THAT YOU HAVE READ. CERTAIN SCENES, CERTAIN PHRASES, CERTAIN DISCOVERIES OF HITHERTO UNSUSPECTED FORMS OF VICE, REMAIN IN YOUR MIND IN SPITE OF EVERY EFFORT, AND LIFE IS NEVER QUITE THE SAME AS WHILE YOU WERE IGNORANT OF THESE BLOTS UPON HUMANITY.

And in the end? Far be it from me to say that no bad man was ever reformed or that never a sinner has become a saint since the days of Peter and of Mary Magdalene, nor do I deny that many a man has been helped in his efforts at rehabilitation BY THE INFLUENCE OF THE WOMAN HE LOVED, but what I do most emphatically deny is that any woman can reform a man unless he earnestly wishes to be reformed. The cure must work from the inside out to the surface and cannot be spread over the outside with any hope of a RADICAL cure.

In other words, THE MAN MUST REFORM HIMSELF, and the woman may help him and make the process easier and more hopeful and comfortable, and in the end bestow the reward of her confidence and approval, but such a triumph as this has its foundations far below the flowery surface of sentiment, or the futile and foolish effort to muzzle a wild beast with a sash ribbon, or to cover unclean depths with a silken mantle and HIDE THEIR ODOURS by sprinkling it with attar of roses.

### TRUE BLUE.

First Used as a Political Term by Scotch Presbyterians.

Blue is an emblem of fidelity, and in Britain for several centuries it has been so esteemed. Coventry was formerly famous for a blue dye that would neither change its color nor wash out, and thence the epithets "Coventry blue" and "true blue" were figuratively used to signify persons who would not change their party or principles on any consideration.

"True blue" is said to have been first used as a political term by the Presbyterians of Scotland against the Episcopalian church. Butler, in "Hudibras," speaking of his hero, says: "For he was of that stubborn crew, / Hight Presbyterian true blue."

Fox, we are told, wore in the house of commons a blue frock coat, and the expression "a true blue Whig" was in common use in his time, though, as one writer puts it, "blue must not be set down as emblematic of fidelity because this color was formerly adopted by the Whigs."—London Telegraph.

### An Insinuation.

Miss Trill—I love to hear the birds sing. Jack Downright (warmly)—So do I. They never attempt a piece beyond their ability.

which are property a part of the town and population.

**Daytona Beach**

Is one mile east of the town. It is approached by three good bridges over the river and well graded avenues, and is the principal summer resort south of St. Augustine. It has more bathing places than any other beach in the world, and is the most popular winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

**Automobile Race Meet.**

The Florida East Coast Automobile Association conducts an annual race meet on the beach. Here live now a universal reputation as the greatest automobile race course in the world. The Daytona Grand Prix is held on November, and in ideal setting on slippy or gravel roads without a break makes it the national racing ground for America.

At Daytona beach is found for day and night carriages, bays, cabs or pedestrian can make a lovely scenic tour on the beach and well equipped sand. It is the most common sight to see silvery bicycles wheeling with the swiftness of the wind before a stiff breeze on the smooth beach, thus affording the most exhilarating sport known to man. Besides the many of hard-shodded palm-fringed lawns bordering the beach, the beach is wide and smooth, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

The beach from the sandy banks to the lowest point of ebb, measures about four feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the beach from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf bathing. Here the infant as well as the grizzled veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out further to test his strength and skill in battling with the incalculable powers of the mighty ocean.

**The Peninsula**

lying between river and ocean is one-half mile wide and is being rapidly improved, and there are fine cottages and modern, good hotels, an extensive new ocean pier, beach pavilion and a large casino.

**A Remarkable Feature**

of Daytona beach is the daily improvement in the style and value of the buildings that are being erected for houses. Men of capital of the North and West have become awakened to its advantages for winter residence, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected and beautiful houses, the abode of wealth and culture are multiplying. Seaside (city beautiful) and Goodall are a nucleus on the ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seaside, a pier reaches 300 feet across the beach into the swelling surf of ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavale, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon. Individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Fishing and fishing boat. Its perfect guides and nets may be had at reasonable prices.

**The Population of Daytona**

proper is about 1,500. Added to this is a substantial population on main shore and peninsula of about 1,000 at Jacksonville, Hialeah, Old Fort Pierce, Ocala, Seaside and Silver Beach.

## DAYTONA and its ATTRactions.

### The Queen City of Florida.

From the F. E. C. Ry. Booklet.

116 Miles from Jacksonville.  
Fare one way.....\$2.30  
Round trip.....4.60  
74 Miles from St. Augustine.  
Fare one way.....\$2.20  
Round trip.....4.40

DAYTONA is situated upon the west bank of the Halifax River at its fairest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss that overarches the street and walks, and among these are interspersed tall tropical palm trees, glossy leaved magnolias, fragrant bay and coral-barked holly, and many other varieties, while in many places the wild grape, the trumpet vine and the amplexiclimb climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, marled and shelled roads and streets, rendering it the

**Wheelman's Paradise**  
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

**The Beautiful Cottages**  
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

**Water Supply**  
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

**The Population of Daytona**  
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach,

which are properly a part of the town and population.

#### Daytona Beach

Lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

#### Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as mescaline, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebb tide, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

#### The Peninsula

lying between river and ocean is one-half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

#### A Remarkable Feature

at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavale, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon. Individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.

## 20 AND 50 MILE RECORDS BROKEN

Records Were Again Broken Today. Beach Slower Than Last Week but a Stiff Breeze Blowing. Many People Witness the Races.

Fletcher Covers 50 Miles in 38:51  
Napier Driven 20 Miles in 15:23

## TIME RACES TOMORROW A. M.

The last day of the regular races opened up clear and cooler with a 30 mile breeze blowing direct from the north which stiffened up until before the end of the races it was blowing at a 50 mile rate.

The beach was in rather poor condition, the red sand being more in evidence than during any day of the races, making the beach far slower than heretofore.

The excellent races yesterday brought out a larger number of sightseers today, but as the wind stiffened, the crowd thinned down and at the close of the races there were only a few hundreds in sight.

The first event was No. 6, fifty miles, for the Daytona handicap, in which there were 9 entries, as follows:

No. 41. H. W. Fletcher, 80 h p. DeDietrich.

No. 6. E. R. Thomas, 80 h p. Daimler, M. Roberts driver.

No. 25. Wm. Wallace, 80 h p. Fiat.

No. 8. B. M. Shanley, 90 h p. Daimler.

No. 13. W. G. Brokaw, 60 h p. Renault.

No. 30. W. Christie, 60 h p. Christie.

No. 14. G. W. Vaughn, 40 h p. Renault.

No. 36. R. E. Jarrige, 45 h p. DeDietrich.

No. 5. A. E. McDonald, 90 h p. Napier.

The course was laid from the club house south to the 10 mile post, the machines running back and forth until the 50 miles were covered, finishing ten miles south.

The machines started in the following order with handicaps given: 36, 8 minutes; 14, 7 minutes; 30, 5:20; 13, 5 minutes; 8, 4 minutes; 25, 3:30; 6, 1 minute; 41 and 5 scratch.

Controls of 2 minutes were made at each turning point, making the race virtually five 10 mile heats.

The first 10 miles, run north against the wind, was rather slow, the best time being made by car 5 in 7:44 1-5; the beach record of last year being 6:50 made by Vanderbilt.

At the 20 mile post Sartori was in the lead.

In the 30 mile run 21 gained and lead by 21 seconds, No. 36 second.

The Napier car had tire trouble and Wallace left the machine, not expecting to run. At the last second she was ready to start and calls were yelled for Wallace, who ran with all speed and jumped in while the car was being started by his mechanic-an. The last seen of him he was still trying to steer and fix his goggles. This race, although No. 13, was not a Jonah for Billie.

The Napier won in 15:23, second 11, time 15:34; third, 25, 15:36; fourth, 31, 16:01; last 8, 16:25.

Vanderbilt's record of last year was 17:02, so that every car beat the world's record, the Napier reducing the record 1:30.

The third race was the final of

given: 36, 2:15; 30, 2 min; 16, G. H. Flinn, 60 h p Daimler, 2 min; 8, 40; 25, Wm. Wallace, 90 h p Fiat, 40; 41, 10 and 5 at scratch.

The wind had stiffened by this time and good time was expected, 25 and 41 started together but Wallace easily jumped ahead of his competitor and beat him at the finish by nearly 3 seconds.

Sartori had some trouble with his car, when the signal was given was not ready to start, so had to drop out and the Napier did not finish in the race.

Car 36 won in 8:02 3-5; No. 11, second, 8:54.

The street sprinkler was at work today for the first time in many moons.

H. Arnold, of New York, who has been getting out programs of the races here is an expert at the business. He has rushed the latest and best information into his productions and racing officials were heard today complimenting the excellence of his work.

### An Old Gag.

A new game to many people here is being worked by a set of sharpers who are in town. The plan is to have a cheap, but fine appearing small article of jewelry which is dropped and afterwards picked up either by the sharper or a confederate while someone is looking. This article the "finder" professes not to want and offers it for sale at a low figure.

Of course no owner ever claims the goods and in a few days the buyer discovers the truthfulness of the old adage "all is not gold that glitters," and is a sadder but wiser man.

### Judge Shea Posed.

Some years ago Judge Shea, a New York lawyer, became chief justice of what was then the marine court and what is now known as the city court of New York. He went to England once and was registered at a hotel as "Chief Justice of the Marine Court, U. S. A." The lords of the admiralty and the judges of all the great British courts called upon him, put him up at their clubs, invited him to dinner and treated him with as much consideration as if the tribunal of which he was the head had been, as they supposed it to be, one of the great courts of the United States, instead of a purely city affair.

Judge Shea was never tired of recounting to his cronies here how he had been treated in England on that memorable trip.

### Liquor and the Term "Proof."

What "proof" means as applied to the quality or the measurement of the strength of whisky is not understood by many people. As explained by a man who knows the correct use of the term it is simple enough. The standard of the United States revenue is a liquor half of which, by volume, is alcohol. This is 100 proof. If a whisky, then, is described as 90 proof it means that it contains 90 measures of water and 10 measures of alcohol. Whisky of 100 proof contains equal measures of each. Whisky of 120 proof contains 100 measures of water and 20 measures of alcohol.—Philadelphia Record.

Cars 4 and 5 crossed the line in front of the grand stand a few seconds apart. As they slowed down for the control a collision was avoided but a few feet. The De Dietrich fell out at this point on account of a broken clutch and the car ran away with the driver, going fully a mile north to the club house. The Napier slipped a gear wheel and drove up into the soft sand. Wallace, with the bad luck which has been following him ran out of gasoline.

Forty miles showed Sartori still in the lead with car 8 next. Car 6 fell out on account of a tire.

The 50 miles were finished in front of the club house, Sartori winning the race and the cup in 10:20.

H. W. Fletcher in the 80 h. p. DeDietrich covered the 50 miles in 38:51 but did not win the race on account of the handicap. Vanderbilt's record was but 40:49 4-5.

Event 13, 20 miles, for the E. R. Thomas championship trophy, was the second race, in which there were 8 entries, the cars and numbers being the same as in the above table.

The cars were started one minute apart and ran south to the 10 mile post, where there was a two minute control, returning and finishing at the club house. Cars Nos. 8, 21, 25, 41 and 5 started in the order given.

event 5, the Ormond Derby for the C. J. S. Miller trophy, two heats of which were run yesterday.

In this event cars 5, 8 and 6 competed, the cars and drivers being the same as in the foregoing table.

The cars were started together and came to the line well together but all going very slowly. As they crossed the line No. 6 shot ahead and took the lead with the Napier a close second and 8 trying to get room way. As far as the eye could follow them they seemed close together and was the prettiest race started.

No. 5 won the heat and the event in 6:15, No. 6 second—this breaks the world's record last year of 6:50 and the new world's record made last Saturday by the same car when she made it in 6:31 4-5.

The English papers have been rather sceptical as regards the fast time made on the beach here, not only this year but during last year's races. It is to be wondered if they will accept the figures above when made by an Englishman driving an English made machine. Possibly even they will admit that the Daytona-Ormond beach is a speedy one.

The last regular race for this year's meet was event 29, a ten-mile handicap, between the following cars, the amount of handicap being

For No. 4 Ring which the owner can have by applying to the Mayor and paying charges.

It was announced from the judges' stand at the close of the races that the various trophies would be presented this afternoon.

The circulation of the DAILY NEWS is steadily increasing and on Monday passed the 500 mark by a clear majority of 100. Monday's edition of the paper was exhausted fifteen minutes after the last form was off the press. 600 for a daily in a city the size of Daytona is a very creditable showing and is evidence that the public appreciate our efforts. It shall be our aim to build the circulation to a still higher figure and to accomplish this will make it better and better each day.

## Daytona Daily News

Published Daily Except Sunday.

Issued from January 1, to April 1, at Daytona, Florida, by  
GEO. F. CROUCH, EDITOR AND PROPRIETOR.

Subscription—(by mail) \$1.50 for the Season. By Carrier 15 cents a Week

(Entered as second-class matter January 2, 1905, at the postoffice at Daytona,  
Florida, under Act of Congress of March 3, 1879.)

The Daily News on sale at  
Clark's and Barnes' news stands.

Barney Oldfield and wife left yesterday for St. Louis.

Chas. J. Rogers, of Palatka, was in the city yesterday.

Note the change in the railroad schedule in another column.

The Cherokee took a party of 35 on the Tomoka trip yesterday.

Mr. and Mrs. A. W. Piaget, of Patterson, N. J., are at The Austin.

W. H. Pickens left for New Orleans to promote the auto racing there.

W. C. Turse, Sandersville, Ga.; F. E. Brenner, Philadelphia, are guests of The Gables.

B. W. Nichols, of Sharps, Fla., has arrived and will assist Agent Webber with the express.

E. C. Ball, who drove the Electric Vehicle Co's autos in the races, left for Hartford, Conn., yesterday.

E. D. Waldron, a well known property holder of St. Augustine, was a guest of The Ridgewood yesterday.

F. J. Arch and wife, Dayton, O., and H. S. Hepburn and wife, Davenport, Ia., registered at The Ridgewood yesterday.

The Boys' Band left for DeLand yesterday, to fill an engagement there last night. From there they will go to New Smyrna and Cocoa.

The change in the railroad schedule, which was not generally known, caused many to get left yesterday. Agent Jibb had notices of the change posted, but the public overlooked them.

There will be preaching at the Christian church on Palmetto avenue between Orange and Live Oak avenues, next Sunday at 11 o'clock a. m. and 7 p. m. by the new pastor, Omer Carpenter, from Lexington, Ky.

La Sha, Electrician, 221 n Beach street, 500 Edison electric lamps just received. 2 to 50 c.p. 100 volts. Also fixtures and shades. J27-1m

A five-table euchre part was given at The Cleveland which kept the guests up till a late hour and proved very enjoyable. The gentleman's prize was won by Chas. Barber, of Joliet. Mrs. Searles, of Beaver Falls, Pa., secured the ladies' prize. The consolation prizes were awarded to Mrs. Churchill of Chicago, and J. S. Storer of Pittsburg.

A boomerang thrower gave an exhibition of his skill on Beach street, yesterday afternoon, which attracted quite a crowd. The instrument looks like two flat sticks, about ten inches long and one inch wide, fastened in the middle at right angles. No matter how he threw it, perpendicularly or horizontally, it returned to him. He did not offer to sell them, but stated that they were for sale in town and that he was simply showing the public that any one could handle them as well as himself.

### Announcement of Candidacy.

I hereby offer myself as a candidate for Mayor and if elected will pursue the same lines of administration as in the past two years.

Respectfully,  
C. L. SMITH.

Capt. and Mrs. Geo. E. Brown and Mrs. M. C. Moore left today to see the Palm Beach races.

C. C. Chaffin, district manager of the National Cash Register Co., of Atlanta, is a guest of The Despland.

The Cherokee is now making regular runs and will make the trips as scheduled until the close of the season.

Lost, gold filigree locket between postoffice and my residence. Reward if returned to 45 First avenue. It

J. F. Hasty and Miss Hasty, of Detroit, came up by launch from Ponce Park and spent the day in the city.

Your Chiropody, Manicuring, and shampooing done at your hotel or residence by Mrs. Brown, Troy House. It

Roland Hordy, who has been a clerk in the express office during the races, has been ordered to West Palm Beach.

Mrs. L. A. Brenoman, Lancaster, Pa.; H. C. Plimpton, New York. Mrs. Lindeman, Mrs. F. F. Brookes, Philadelphia, are guests of The Palmetto.

Al. Bechold left today with the Blue Streak and the Peerless touring car, for New Orleans, where he will get Barney's racers in trim for the track.

The Green Dragon has been shipped to Chicago, where she will be put on exhibit. She will then be sent to take part in the New Orleans races.

H. N. Ogden, Cincinnati; J. M. Fikes, C. W. Bush, Fenton, Mich.; Jno. J. Walterhouse and wife, Saratoga; W. M. Miller, Millersburg, Ky.; Mrs. J. R. Baker, Miss Louis Buschman, Cleveland; Geo. A. Hellman and wife, Chicago, are guests of The Cleveland.

#### THE WEATHER.

Sunday fair and warmer.

A fine Piano and Piano-player for rent. Address W. News office, 29-31

A large audience greeted Mr. and Mrs. Russell at St. Mary's Hall last night and enjoyed the performance. Quite a neat sum of money was raised for the benefit of the church.

Mrs. R. P. Raden, Mrs. Moran, N. D. Maleson, Jr., N. Y.; D. R. Brown and son, Pittsburg; Mr. and Mrs. C. C. Rogers, Mrs. A. R. Ryeo, Escamilla, Mich are guests of The Des Pland.

Mrs. L. O. Rawson had the fire engine out yesterday afternoon, sprinkling the street and park in front of her residence on south Beach street. Many places need it far worse.

J. P. Browning, who has charge of building the new road south of Port Orange, brought up three enormous oyster shells picked at random from the big shell mound which has recently been opened up. Two of these shells are long and narrow and will measure 3 1/2 by 2 inches, while the other one is fully 3 inches each way. Mr. Browning says the shell mound is fully a mile long and has been opened up to a depth of 20 feet, how much deeper it goes, he has no idea.

#### Freights May Be Cut.

The recent decision of the Florida Railroad Commission, which body has ordered a sweeping reduction in railroad tariff rates of freights, is considered a signal victory for the interior cities which did not enjoy the competition which seaboard towns with their steamer lines offered. For the past two years this matter has been under consideration, the dealers in those sections claiming that they were unjustly taxed with high rates. This move on the part of the commissioners is accepted with pleasure by the wholesale houses. It is likely to cause a call in the northern bound freights, as the reduced rates from Cuba have tended to cause the shipments of freight from that place by a part steamboat transportation to cut into the Florida shipments — Palm Beach News.

#### Frank Croker Left Fortune.

Frank Croker, killed in the automobile accident on the beach near Ormond a week ago, at the age of 27 years had piled up a fortune of \$100,000.

This fortune he made out of the Roebeling Roofing Company, at the same time managing all the business affairs in this country of his father. That he had made so much money on his own account was unknown even to Tammany men until John Fox, president of the Democratic Club and an intimate friend of young Croker, announced it last Saturday in New York.

"Fox men know," said Mr. Fox, "that Frank left a large private fortune. He was the active head of the Roebeling Roofing Company, with offices in the Flatiron building, and it was through his energy that the business was such a profitable one."

"I am reliably informed that he had made a fortune of \$100,000. The company has outstanding contracts for roofing on a large scale all over the country. Every cent of this fortune was made by Frank Croker himself, without aid from his father, and is a splendid memorial of what a young man of 27 can do, provided he applies himself to business."

The connection of Frank Croker with the Roebeling concern was one of the matters about which Richard Croker was questioned before the Mazet committee, an effort being made to show that the company had been shown favors by the Van Wyck administration. Richard Croker resented the implication, and one of his bitterest complaints against New York was that his sons could not go into business "without being hounded," as he put it.

#### High School Items.

Next Friday is election of officers in Parliamentary Club and its high time the candidates were in the field advocating their merits.

Examinations are over once more and only the other fellow failed.

When we had \$50 in our High School treasury, we knew what to do with it, but now that we have only \$3 we are torn with devers' desires.

Write up your ad for the club paper.

Did we hear any one talking about that new school building for next year?

#### Motor Boat Races.

Trophies of beauty and great value will be contested for by the owners of motor boats as well as those who have fast boats in other classes at Palm Beach today. In one of the large show windows of Greenleaf & Crosby Company there is an exhibit of some of the magnificent cups. Several of the owners of boats have offered handsome loving cups of rare beauty, design and skill in silversmith's art.

The wharf at the Royal Poinciana grounds has been enlarged and improved and will be one of the important vantage points during the races. There will be tiers of elevated platforms on which will be grouped lawn benches.

The decorations of boats of all classes will add much grandeur and color to the events, each day's parade to be a panorama of beauty.

To accommodate the large crowd of patrons from the hotels provisions have been made by having auxiliary launches and boats from abroad, while there will be ample facilities for witnessing the races.

The houseboats will be in line with pretty decorations and will form a leading attraction, as they are so susceptible of elaborate treatment at the hands of the artistic decorators. Some of these boats will be floating gardens and at night they will be decorated with electric lights and many pretty and gorgeous Japanese lanterns.

#### Si Plunkard.

The rural Yankee comedy of the above name will be at the opera house Friday next. The comedy is in four acts, the scenes of which are laid in and around the New England country and New York City. The central figure of course is "Si Plunkard," a young Yankee farmer,

which part is looked after by Mr. J. C. Lewis.

Some of the leading characters seen may be mentioned: Dora Page, a young country lass in love with Si; Felix Smart, an inventive Dutchman; Robert Denny, a bogus stock speculator; Ezra Plunkard, an honest old farmer who does not understand speculation; and numerous country friends of the Plunkard family. The performance includes many specialties of an original and novel character by a company of comedians and the grand orchestra carried by the company will render the latest musical selections between the acts.

#### State Items

Lake City and Miami have refused to grant franchises to opposition telephone companies.

Watch for Florida's calamity liar.

W. Gould Brokaw's launch Challenge was slightly damaged while being launched to take part in the races at Palm Beach.

Entries for the Palm Beach races closed today. Over 60 boats are entered.

Tampa shipped 2,505,000 cigars for the week ending January 11.

Apalachicola ships more oysters than any other point in the State.

Lee county has shipped over 100,000 boxes of oranges, or over 25,000 more than ever before in one season.

The total number of boxes of oranges shipped from Zolfo this season is in the neighborhood of 83,000 or about 10,000 boxes more than last season.

The President has sent to the Senate the nomination of W. C. Eddy as postmaster at DeFuniak Springs, and Alexander Zipperer as postmaster at Madison.

#### Automobile Superstition.

The automobile is such a modern institution that it is hardly possible to imagine superstition being already connected with it. Among modern car drivers in England, however, there is a curious survival of an old bit of folklore. In many cars is suspended a perforated stone, usually a sea rolled flint with a natural bore. This stone is supposed to act as a protective amulet. To be efficacious in warding off evil the hole must be naturally or, as some people maintain, supernaturally forced, not artificially bored. Belief in this stone's power is widespread. It is supposed to confer safety on the fastest traveling motor car, and there is many a speedy driver who in his heart ascribes his immunity from accident to the strange power of the perforated pebble.

#### Her Worst Fear.

Willie—Oh, mamma, that cook sent has red hair, scars all over her face, a breath that smells like whisky. She looks awful mad and says she wants to see you.  
Mrs. Slimson—Oh, dear, I'm afraid she isn't going to stay!—Brooklyn Life.

## Women Who Marry Men to Reform Them

By Mrs. FRANK LESLIE

REFORMED rake makes the best of husbands," is an old saying and, like many other time honored assertions, is simply a VENERABLE fraud, and again, like many other often exposed frauds, it is just as effective for MISCHIEF today as when it started out in life, perhaps in the days of Cain, who may have been taken in hand by some antediluvian enthusiast who preferred the honor of converting him to the monotonous contemplation of Abel's virtues.

Generations on generations of women have tried the experiment and failed in it, but the generation of today is pursuing it with just the same credulous belief in its own powers that has led its predecessors astray, and THE RESULT IN THIS CASE WILL BE THE SAME AS IN THAT, just as thrusting the hand into the fire today burns in quite the same way that it did when Joan of Arc perished in the flames because she thought she could reform Charles VII. and his France.

One very singular point in this repetition of history is that men pick up the very same blunt old weapon that their fathers have thrown aside, and use it with exactly the same success as if it had been forged for their personal use and under their own patent, while the woman, accepting the man AT HIS OWN VALUATION, enters with the ardor of a discoverer or an inventor upon the well worn path of defeat and travels it to the very same bitter end achieved by thousands of women before her, and even then it is not often that she recognizes the fact that she has only been repeating history and has not the very LEAST LITTLE CLAIM to originality either in the idea of the campaign or in its disaster.

A BAD MAN IS IN SOME RESPECTS LIKE A BAD BOOK. YOU STUDY THE ONE OR THE OTHER, YOU ARE ALTOGETHER SHOCKED AND REPELLED, AND AT THE END YOU THROW THE BOOK ASIDE, BUT YOU CANNOT BY A MERE EFFORT OF WILL FORGET ALL THAT YOU HAVE READ. CERTAIN SCENES, CERTAIN PHRASES, CERTAIN DISCOVERIES OF HITHERTO UNSUSPECTED FORMS OF VICE, REMAIN IN YOUR MIND IN SPITE OF EVERY EFFORT, AND LIFE IS NEVER QUITE THE SAME AS WHILE YOU WERE IGNORANT OF THESE BLOTS UPON HUMANITY.

And in the end? Far be it from me to say that no bad man was ever reformed or that never a sinner has become a saint since the days of Peter and of Mary Magdalene, nor do I deny that many a man has been helped in his efforts at rehabilitation BY THE INFLUENCE OF THE WOMAN HE LOVED, but what I do most emphatically deny is that any woman can reform a man unless he earnestly wishes to be reformed. The cure must work from the inside out to the surface and cannot be spread over the outside with any hope of a RADICAL cure.

In other words, THE MAN MUST REFORM HIMSELF, and the woman may help him and make the process easier and more hopeful and comfortable, and in the end bestow the reward of her confidence and approval, but such a triumph as this has its foundations far below the flowery surface of sentiment, or the futile and foolish effort to muzzle a wild beast with a sash ribbon, or to cover unclean depths with a silken mantle and HIDE THEIR ODORS by sprinkling it with attar of roses.

#### Fire Under Water.

Fire under water may be produced by placing some small pieces of phosphorus in a conical shaped tumbler and then covering them with the crystals of chloride of potash. Next fill the glass with water and then add a few drops of sulphuric acid, the acid to be applied directly to the phosphorus and potash crystals by means of a long tube. If the experiment is properly carried out tongues of bright red flame can be seen flashing up through the water, the intense chemical heat produced by the action of the sulphuric acid on the potash and phosphorus being sufficient to inflame the latter, although entirely covered with water.

#### A Great Difference.

At a dinner given by Governor J. K. Vardaman of Mississippi the subject of toasts came up. "A very good toast," said Governor Vardaman, "and one that comes home forcibly to all men in office, was once proposed by the learned Ashley Stockton of Montpelier. The occasion was a farewell banquet to the governor of Vermont, whose term of office was expiring."

"Here," said Ashley Stockton at this banquet, "is the health of all governors. They come in with a great deal of opposition, but they go out with none at all."

#### TRUE BLUE.

First Used as a Political Term by Scotch Presbyterians.

Blue is an emblem of fidelity, and in Britain for several centuries it has been so esteemed. Coventry was formerly famous for a blue dye that would neither change its color nor wash out, and thence the epithets "Coventry blue" and "true blue" were figuratively used to signify persons who would not change their party or principles on any consideration.

"True blue" is said to have been first used as a political term by the Presbyterians of Scotland against the Episcopalian church. Butler, in "Hudibras," speaking of his hero, says:

For he was of that stubborn crew,  
High Presbyterian true blue.

Fox, we are told, wore in the house of commons a blue frock coat, and the expression "a true blue Whig" was in common use in his time, though, as one writer puts it, "blue must not be set down as emblematic of fidelity because this color was formerly adopted by the Whigs."—London Telegraph.

#### An Insultation.

Miss Trill—I love to hear the birds sing. Jack Downright (warmly)—So do I. They never attempt a piece beyond their ability.

Fare one way.....\$3.50  
Round trip.....6.00  
74 Miles from St. Augustine.

Fare one way.....\$2.50  
Round trip.....4.40

DAYTONA is situated upon the west bank of the Halifax River at its fairest expanse and midway between its source at Biloey Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is open, what is known as high hammock land, and that was covered by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, which is beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overhang the street and walks, and among these are interspersed tall tropical palm-trees, glossy leaved magnolias, fragrant bay and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the amplexoid climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadam and shell roads and streets, rendering it the

**Wheelman's Paradise**  
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

**The Beautiful Cottages**  
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lilly Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

**Water Supply**  
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

**The Population of Daytona**  
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,600 at Kingston, Blake, Old Seabreeze or Gosnell, Seabreeze and Silver Beach,

which are properly a part of the town and population.

**Daytona Beach**  
lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

**Automobile Race Meet.**  
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at oblique, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the gray-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

**The Peninsula**  
lying between river and ocean is one-half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

**A Remarkable Feature**  
at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon. Individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.
